TARIFF BILLS UP THIS WEEK

Congress Shows Disposition To Get Down To Work

Senate's Disposition Of Archbald Impeachment Will Be Large Factor In Getaway Date—Government Needs Money And Appropriation Bills Will Be Rushed—Makeshift Panama Canal Legislation May Be Passed And Toll Question Settled Next Session

Washington, July 22.—Progress toward early adjournment of the present session will be made the present week by the removal of the tariff as an issue in congress.

Agreements for a vote on leading tariff bills, coupled with understandings that other important legislation either will be disposed of or hastened toward action, indicate that the week will embrace some of the most important work of the session.

In the senate the first three days of the week will be devoted, it is expected, to the completion of the sundry civil appropriation bill and debate on the Panama canal administration bill. The Democratic wool tariff bill will be voted on Thursday, the excise tax bill on Friday and the sugar tariff bill Saturday. On each measure the debate will be limited to the single day set for the vote.

It is expected that the house will take up the tariff again and pass the cotton bill, as the result of the senate's determination to submit the other Democratic measures to a vote. The program for the week is well filled, however, and the measure may not be reached.

Government Needs Coin.
Failure of congress to agree on the important appropriation bills, which should have been passed before July 1, has seriously embarrassed many of the government departments. Pressure has been brought to bear on the house and the senate during the last week to dispose of the pending measures, and it is expected that much progress will be made in the next three days.

Predictions as to the probable date of adjournment still hinge on the senate's disposition of the impeachment of Judge Robert W. Archbald of the commerce court. If the wishes of the majority of the senate prevail, and the trial goes over until November or December, it is expected that legislation can be hastened so that an adjournment may be reached Aug. 10 or Aug. 15.

The need for immediate legislation regulating the operation of the Pan-

ama canal is fully appreciated in the senate, where the fight over free tolls for American ships threatens to hold up the bill already passed by the house. A plan has been broached in the senate to pass a temporary measure giving President Taft executive authority to operate the canal and to fix a temporary toll rate, leaving the permanent question to be settled at the next session if the differences among members as to the pending bill are not soon solved.

The house will be called upon during the week to vote on the report of its elections committee, recommending that Representative Theron C. Catlin of Missouri be ousted because too much money was spent by his relatives in his election. Democrats of the house are expected to support the committee report.

Columbus, O., July 22.—Republican candidates for state offices, who held conferences with Judge E. B. Dillon, departed in expectation of seeing the Republican state ticket endorsed by the Roosevelt men and placed on the ballot in the same column with the Roosevelt electoral ticket. They felt reasonably confident their names

Their prognostication was based on information they had obtained from Roosevelt leaders after persistent ferreting.

Guadalajara, Mexico, July 22.—An earthquake shook this city to its foundations, destroying a large number of buildings and rendering several thousand homeless, coming as a climax to a series of seismic disturbances which covered a period of more than five weeks.
